INDIAN TRIES TO
COMMIT SUICIDE

USES A RIFLE TO SHOOT A HOLE
THROUGH HIS JAW AND
IS RECOVERING

An Indian from Hot Creek is at the county hospital convalescing from a gunshot wound in the jaw after an attempt at suicide. Dave takes the injury stoically. He says he indulged too much in sheep dip and after a big drunk grew so de- pendent that he resolved to end his misery by shooting his head off. Taking a .22 rifle he planted it firmly under his chin and pulled the trigger. The bullet, instead of following a straight course and emerging from the top of the head, was deflected and came out on the left side, leaving an ugly hole and fracturing the jaw.

EIGHT FEET OF \$40
ORE ON MONARCH

Monarch Pittsburg was in active demand this morning when it be- came known that the mine had opened eight feet of \$40 rock which had been drifted on for a distance of 20 feet. The ore was found on the \$50 level and the footwall is not in sight yet. The formation is Ex- tension breccia on the footwall and is undoubtedly an extension of the Murray vein, according to the state- ment of manager Branch Smith. The ore was opened a week ago but the fact kept quiet until the ore body was proved up.

PAY FOR TEACHERS
IN NIGHT SCHOOLS

(Special to the Bonanza.)

CARSON CITY, Mar. 15.—Senate bill 126 providing for the compensa- tion of teachers employed in night schools is about to receive the signa- ture of the governor. The bill was introduced at the instance of the Lieutenant governor with the idea of assisting in giving a higher edu- cation to those who were deprived of the privilege in their early youth. The bill stipulates that teachers shall receive \$40 a month in addition to their regular day salaries. Where such schools have been operated, as in Reno, the teachers have serv- ed without any pay. An appropriation of \$10,000 covers the period of two years allowing for 12 teach- ers within the state. As soon as the bill is signed, those desiring to attend night classes should en- roll.

The anti-gamblers had things pretty much their own way in the as- sembly yesterday afternoon and forced the Thatcher gambling bill out of the committee on public morals after overruling Speaker Ben Luce on several of his rulings. The com- mittee's report was favorable as amended, the amendment consisting of a recommendation that the last two sections of the bill be stricken out. Those two sections refer to sheriffs and district attorneys who fall or refuse to take steps to en- force the law and provide that of- ficials who conduct themselves in that way are subject to removal from office.

The bill now is on the assembly's general file. Most of yesterday af- ternoon's session was spent on the fight over the bill.

The assembly concurred in all senate amendments to the highway and tax commission bills and also passed the act for the protection of fish and game. The bill establishes an open season on sage hens from July 15 to September 1, and closes the season on antelope. It creates five fish districts and cuts the bag limit on ducks to 15 birds.

The senate passed the new water law after considerable debate, the vote being ten to seven, with two not voting. Senator Stewart voted against the bill. The bill creating a state fish and game commission and providing for a state game warden to be appointed by the governor also was passed by the senate.

The joint labor committee's amend- ments to the industrial insurance act were laid on the table by a vote of 12 to 5.

Ambler's anti-trading stamp bill and Assemblyman Stewart's bill mak- ing false advertising illegal also were passed by the senate.

FRANCE AFTER WAR
PLANS DEVELOPMENT

(By Associated Press.)

PARIS, Mar. 15.—Etienne Clemen- tel, minister of commerce, is giving consideration to the expansion of trade with the United States after the war. "The interests of America and

France," said he to a correspondent of the Associated Press, "have grown so much closer during the war that I am sure they will continue to de- velop when peace comes. The trade policies of both your country and of mine before the war made ex- changes difficult. Our financial re- lations with the United States dur- ing the war make it desirable, from our standpoint, to increase our exports to the United States, and you, on your side, have been showing a great interest in expanding your foreign trade. These motives ought, I con- ceive, to bring about a new working arrangement, in which both coun- tries shall treat on a reciprocal basis. From such information as I have, I believe that the governments of both countries will be disposed to take up the question at the proper time."

M. Clementel considers that the trade barriers between France and the United States are as much the creation of the American government as of the French. "The obstacles raised by the French tariff against free importations from America," "are largely the consequence of the American tariff policy. French man- ufacturers and exporters do not com- plain against high rates of duty as much as against the uncertainty of the interpretation of your tariff laws by customs officials and the inquisi- torial practices of investigating the selling prices in Europe and the cost to the manufacturer in assessing the ad valorem duties."

SILVER CITY MINES
ARE CONSOLIDATED

BIG MERGER OF SILVER PROP-
ERTIES IS CONSUMMATED
BY EASTERN CAPITALISTS

One of the largest mining con- solidations accomplished in Nevada recently has just been consummated by Oscar Daube, of 50 Broad street, New York City, acting in the inter- ests of eastern capitalists, in merg- ing the Overland Mining company, the Succor Mining company, the Democrat Mining company, the La- ger Beer Mining company and the Shields group of mines in the vicin- ity of Silver City.

The new consolidation will be known as the Consolidated Overland Mining and Development company and work will be begun on April 1 to place this group of mines among the large producers of silver in the state.

Daube is an enthusiastic propo- nent of "dollar silver." "I have been bullish in silver since the beginning of the war compelled the transfer- ring of large amounts of gold from Europe to the United States," he said in an interview. "The world this year is going to see such a re- vival of silver mining as was never known before. Old properties, like the Overland, the Comstock and the Silver City mines, that have not been worked for years, will be re-opened and will prove to be pay- ing propositions because today we can profitably work ore that was fit only for the dumps in the days when those mines were active. Man- hattan has come back, and why not others?"

"We are preparing to open the mines that have been consolidated under the name of Consolidated Overland Mining and Development Co. and to work them for every grain of silver there is in them. I believe you will see soon other mines opened in the same way and Nevada is going to have a mining boom such as it has not known since the dis- covery of the Comstock lode."

OIL AND BOILER
FOR THE ORIZABA

A carload of fuel oil has arrived from the coast for the use of the Orizaba Mining company and is now held on the sidetracks at Mil- lers waiting to be unloaded. The roads are improving rapidly and it is merely a matter of a few days before the company will be able to move the new 100-horse-power boiler destined for the mine. With this addition there should not be any difficulty in getting back into the running after the mine has been dewatered. No time will be lost. At the mine the property is in ex- cellent shape having been protected during the shut down enforced by bad roads.

RECEIVER DENIED
AGAINST WALSER

FIRST TILT IN SUIT AGAINST
MINING MEN WON BY
DEFENDANTS

The request for the appointment
of a receiver to take charge of the
stock owned by Mark Walser and
Frank Margrave in the Nevada Pack-
ard Mines company was denied by
Judge Moran at Reno.

Walser and Margrave were sued
recently by R. S. Page and Marie
Olive Page for over \$200,000 and
were ordered to appear before Judge
Moran and show cause why a re-
ceiver should not be appointed to
take charge of their stock.

Judge Moran made an order di-
recting the defendants to secure a
\$50,000 bond to protect their stock
pending the outcome of the suit and
gave them 15 days to decide whether
they would secure the bond or not.

The suit brought by the Pages
does not involve the Nevada Packard
Mines company in any way, but
simply involves the personal inter-
ests of Walser and Margrave.

MACHINERY FOR THE GREAT
WESTERN HAS ARRIVED

The electric hoist and pumps for
the Great Western arrived today and
will be installed at once. Manager
Magee was fortunate when in San
Francisco in picking up the parts

PURGING THE TOWN
OF DISREPUTABLES

The pastors of the three churches
in Tonopah waited on the county
commissioners yesterday with a re-
quest for a general cleaning up of
the town. The petition was taken
under advisement until Saturday
when the board will decide to what
extent to go in purging the lower
district. The red light district is
within 400 yards of the Catholic
church and will have to be moved.
It is proposed to establish a stock-
ade, where children will be ex-
cluded and denizens and their con-
sorts compelled to live in that quar-
ter.

REPORTED TO BE MISSING

An advertisement in the Bonanza
refers to a request for information
about Mark Estes, who has been
missing for some time and a report
circulating that he was the same
one who was shot in an alterca-
tion in a Main street lodging on
June 27, 1914. This is not the case
as the victim of the shooting was
Harry Estes.

Wages Raised 50 Cents a Day

Another increase of wages is necessary, so we have figured out
that by saving you fifty cents a day off your grocery bill, that it is
just the same as having your wages increased fifty cents a day.
That is the way the Goldfield Consolidated raised their men's pay
—by running a cash store and keeping the cost of living down.
We have found that we can keep the cost of living down 50 cents
a day, by buying direct from producers, to eliminate middlemen's
profits, and by selling for cash and having no lost accounts to
make up by increased prices to you.
